

## About us:

Inspired Recruitment was established in March 2000, its objective, to become a leading technical employment solutions provider.

We feel this is something that has been achieved and is confirmed by the fact that we have grown every year since inception, weathering two of the worst periods of trading for the recruitment sector along the way.

Inspired Recruitment is now a provider of temporary and permanent recruitment solutions to a plethora of organisations, large and small, operating in a multitude of sectors throughout the UK and Europe, covering all areas of I.T, Engineering and Development skills.

## What can we offer?

Inspired Recruitment has always worked on the premise that we are a people business and that people only buy from – people! We have always ensured that all clients and candidates work with one point of contact in order to establish an essential bond of trust, familiarity, understanding and knowledge between client, candidate and consultant. This will enable us to find the right people for the role, not just the right skills, something often forgotten or lost in recruitment. The service is further enhanced by the fact that all our consultants are responsible for every aspect of the recruitment cycle.

In addition to permanent and temporary recruitment solutions, here is a list of some of the additional services Inspired Recruitment offers:

- On-site/off-site interview services
- Pre-screen interviews (can be tailored to suit individual client needs)
- Payroll facilities (we run our own payroll service removing room for error)
- Performance monitoring – full details on how we've performed on requirements available on request
- Advice on market trends
- Full DISC profiling
- Contractor Care Program

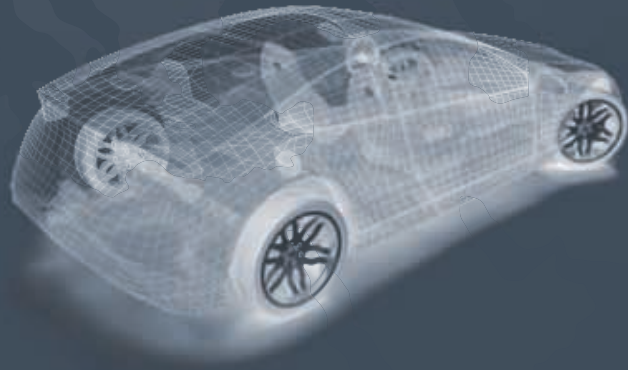

For more information on these, or to see additional services not mentioned above, please call or visit our website, [www.inspiredrecruitment.com](http://www.inspiredrecruitment.com) now.

## In which sectors do we operate?

Inspired Recruitment predominantly recruits for I.T., sales, technical engineering and development skill sets. This is however not an exhaustive list and we are happy to discuss any other roles that you may have. Whilst these skill sets can be recruited in almost any market sector (and we will work any sector!) our main areas of activity are:

- Aerospace
- Automotive
- Call Centres
- Defence
- Engineering
- FMCG
- IT & Communication
- Oil & Gas
- Power & Nuclear
- Renewable Energy

## Why Inspired Recruitment?

Inspired Recruitment is part of a larger group of companies, incorporated within H2 Group Investments, and are bound by a strict Ethical Code of Conduct and Mission statement, which we diligently adhere to:

### Ethical Code of Conduct:

- Maintain an open and honest relationship with our clients and candidates by operating a strict code of conduct.
- Commit to ensuring complete discretion and confidentiality.
- Candidate details or CV's will NOT be forwarded to a client without the express consent of the candidate.
- Communicate openly and truthfully at all times.

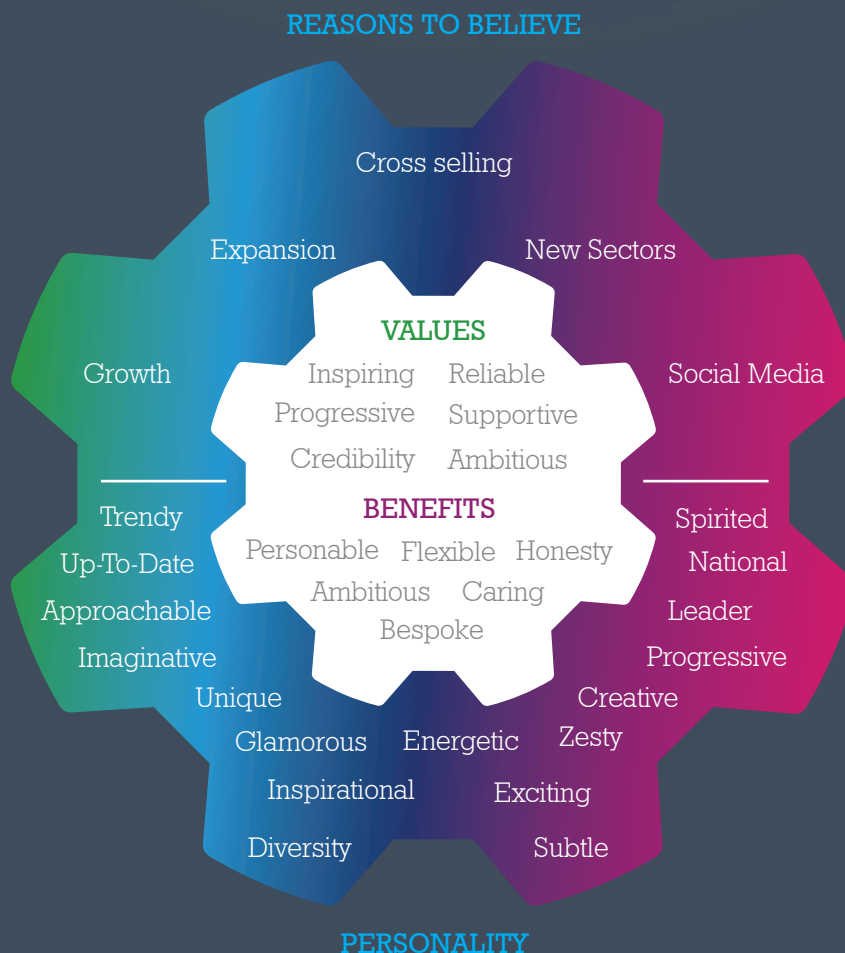

## Mission Statement and Core Values

A market leading group that supports clients and individuals by delivering unrivalled innovative solutions providing unparalleled reliability and always striving to go above and beyond.

Our adherence to the above is reflected in the service we offer and has been further endorsed with our accreditations such as:

- ISO9001
- REC approval
- APSCo approval
- REC Institute of Recruitment Professionals.
